

My Cloud™ Mirror

Personal Cloud Storage

Keep everything
double protected.
Access it anywhere.

Keep all your photos, videos and files
twice as safe, at home and completely
under your control. Access them from
computers, tablets and smartphones
anywhere, anytime you have an Internet
connection.

My Cloud Mirror

Personal Cloud Storage

Product Features

Centralized, dual-drive storage

Store and organize all of your photos, videos, music and important documents on your home or office network.

Mobile and web access from anywhere

Easily get to all your content with computers, tablets and smartphones whenever, wherever you have an Internet connection.

Mirrored data protection

Mirror Mode (RAID 1 – default) stores all your data on one drive and uses the other for a duplicate copy, giving you double the data protection.

Faster performance

New, high-powered 1.3 GHz dual-core processor with 512 MB memory for fast file transfers and high-speed streaming.

Automatic backup for all your computers

Easily back up and protect the files from all your computers with WD SmartWare™ Pro for PC users and Apple® Time Machine® for Mac users.

Photo and video backup for phones and tablets

Automatically back up all your photos and videos so you can easily free up space and never miss a shot.

Sync your life across your computers

WD Sync automatically synchronizes your favorite content across all your computers and your My Cloud Mirror device, so your files are always up to date and accessible from all your devices.

Drive management

Use default Mirror Mode (RAID 1) for twice the data protection. Or choose RAID 0, spanning or JBOD modes for maximum capacity.

Collect and share photos in one simple place

Create one simple place for you, friends and family to collect and share memorable photos so nobody misses a thing.

Increase your personal cloud capacity

Simply attach a compatible USB 3.0 hard drive directly to one of the two USB expansion ports on the My Cloud Mirror and instantly expand your storage capacity.

Connect to Dropbox™ and more

Easily transfer files between your personal cloud, Dropbox and other cloud accounts using WD's My Cloud mobile app.

Give your backup a backup plan

Back up the My Cloud Mirror device in your home to another My Cloud device in your office, or other remote location, to help secure your files from loss due to fire, robbery or other unforeseen event.

Unleash your media

Seamlessly stream your videos, photos and music to your connected TVs, media players, gaming consoles and other DLNA®-certified devices.

Password protection for privacy

Your data is always safe and completely under your control. Protect your personal cloud from unauthorized access with password protection available for every user.

Hassle-free setup

My Cloud Mirror's intuitive setup guides you through connecting your device, uploading all your photos, videos, music and files, and setting up remote access so you can start enjoying and sharing your favorite content.
