DIGITUS®

DIGITUS Ergonomic Stand / Sit / Lean Chair, Height Adjustable with Anti-Fatigue Mat

DA-90391
EAN 4016032464440

Leaning Chair for Height Adjustable Desks

Do you like to stand or sit while working and want more options to increase your ergonomic benefits? Then the ergonomic stand / lean chair from DIGITUS® is just the right thing for you! The chair is height adjustable and can be used for more than just sitting or standing. You can adjust the height so you can lean against the chair or rest your arms, for instance while talking on the phone. A posture between sitting and standing promotes blood flow and relaxes the legs. The integrated gas springs support you when adjusting the height of the chair, allowing you to easily configure the height of the seat and leaning surface. The curved shape of the seat, clad with PU foam, offers optimal comfort for the hips and spine. The anti-fatigue mat attached to the ground surface of the stand chair offers additional relief and relaxation for your feet. The perfect accompaniment for your height-adjustable desk allows for comfortable, ergonomic work: and not just while standing.

Adapts to your height and position – sitting, leaning and standing – the perfect accompaniment for your height adjustable desk
